SMART VALVE™ Next Generation

It's Simple: Save Money On Your Water Bill

HOW IT WORKS

The SMART VALVE™ reduces your water bill by controlling and stabilizing the water pressure read by your water meter. By creating a back pressure system within the water line, any air within the water line is compressed and reduced in volume until it passes through the meter, ensuring your water meter is only reading water usage, and not charging you for water that you never actually used. The SMART VALVE™ is compatible with over 99 percent of all water meters, and requires no maintenance once installed – *just set it, forget it, and save money and water!*

COMPANIES THAT ARE NOW USING THE SMART VALVE™:

- HYATT Hotels
- St. Arnold Brewery
- Life Technologies
- Irvine Company
- Encinitas Union School District
- Doubletree Hotels
- Renaissance Apartment Association
- Tower Drive Laundry
- House of Suds
- Super Planet
- Kleen 'n Green
- Best Western
- True Blue Car Wash

We offer a 90-day no questions asked satisfaction guarantee. If you're not happy with the performance for any reason, just return the valve for a full refund of the purchase price.
